Creating a Picklist from a Sales Order.

1. Open the **Sales** list window.

2. **Select the order number** you need to create a picklist for.

3. Click **Edit**.

4. At the top of the Order window, you will see **'Create Picklists'**. Click on that. Your Picklists are now created for this order.

2.1 Create Pick List from a Sales Order

1. Go to a Sales Order.

2. Click on the Create* button on the top right of the form and then click the *Pick List option.

3. Once you click Pick List, all the data required for Pick List will be fetched from the Sales Order.
